## Community Lakes Association

The Community Lakes Association is a non-profit organization that exists to protect and improve the ecosystems of our lakes and ponds and to promote a sense of respectful stewardship among all users of the waterways in Greenwood and Woodstock. We accomplish this by:

- Educating ourselves and others on issues and practices that help preserve our ponds
- Protecting the natural environment and wildlife in and around our ponds
- Supporting activities that assure maintenance of high environmental standards
- Fighting the introduction or spread of invasive species
- Promoting responsible recreation and boating safety
- Seeking grants and other contributions to fund the above activities.

2016 was a busy year for the CLA Board and committees working on defining our structure and committee work. Our 2016 Annual Meeting was held on Saturday, July 9 at the Old Greenwood Town Hall and was well-attended. Members heard reports by Association leaders, joined in discussions and welcomed Senator John Patrick as a guest speaker.

Some of our key accomplishments in 2016 include:

- **Membership** – We are pleased to report that as of December 31, our membership expanded to 130 members representing most of the ponds and lakes in Greenwood and Woodstock. This is our largest membership to date! In addition, 48 members have made generous additional donations to help with our programs – especially our milfoil efforts.
- **Communication** – To increase visibility and interest in the CLA, four articles were written for the Bethel Citizen. Our logo was redesigned in color and new decals for our members were produced. A brochure called *Welcome to Our Part of Maine: A Visitor's Guide* was re-designed to raise awareness of property owners, renters and visitors about ways to protect our ponds and lakes.
- **Education** - Our LakeSmart program continues to grow with more members asking for a LakeSmart review of their property. Three of these properties achieved the LakeSmart Award level for being exceptionally friendly to the lake environment and for helping to keep our lakes clean and clear. Our leadership also attended numerous conferences to enhance their own knowledge and are available to help members with erosion control questions, planting ideas or basic education toward maintaining the quality of our lakes and ponds.
- **Milfoil** - Battling milfoil continues to be a prime focus of CLA work. In 2016, the need to comply with new OSHA requirements increased our costs of operations. We were grateful to both the Town of Woodstock and the Town of Greenwood for increasing their contribution to help the CLA meet these additional costs. This support, along with a grant from the state and other donations, made it possible for us to continue our milfoil efforts on Lake Christopher and Shagg Pond.

Those efforts are going very well for the cove on Lake Christopher where we are down to harvesting individual plants as they pop up. We still need to be vigilant but elimination in the cove is getting closer. We harvested 450 gals of milfoil and covered 4,300 square feet with 34 mats. In the outlet pond we still have a dense patch of milfoil in the middle but we are closing

in on this patch with a ring of mats. We should be able to cover the rest of this patch next year. This year we harvested 90 gals of milfoil and covered 3,800 square feet with 18 mats.

In Shagg Pond, we had the complications of dealing with additional OSHA regulations along with growing concerns over the size of milfoil infestation. The question of whether to employ a commercial team to augment our own efforts was widely discussed. Aided by the input of property owners at Shagg Pond, we hired a team from New England Milfoil (NEM) to conduct a trial harvest. The NEM team was professional, well equipped, and did a great job. Together, we were able to harvest more milfoil than ever from Shagg Pond - 4,720 gallons.

Our milfoil planning for next year is still in process, but the current outlook is for a two-pronged approach using our team in conjunction with a professional crew at Shagg Pond. Details remain to be worked out and funding could be a limiting factor. The state funding is key to this effort, and our grant allotment will not come through until early in 2017. Fundraising efforts were healthy this year, but there is more that could be done in this area. We look forward to making 2017 our most successful season yet in battling milfoil.

Membership in the Community Lakes Association is open to all who value and use our waterways. Our annual membership fee is \$25 for an individual or household and all donations are tax-deductible. You can download a membership form directly from our website at [www.communitylakesassociation.org](http://www.communitylakesassociation.org). If you are not already a member, please consider joining us.

We look forward to continued growth and communication in 2017. Ideas, comments and questions are always welcome, so please send your thoughts to our e-mail address: [commlakesassoc@gmail.com](mailto:commlakesassoc@gmail.com).

## End of Year Report

### Age-friendly Community Initiative (AFCI)

Since its formation in the fall of 2015, the AARP's Age-friendly Community Initiative (AFCI) has expanded to an area-wide endeavor that embraces the towns of Newry, Greenwood, Woodstock and Bethel. Peter Musso has been designated as Greenwood's representative on the AFCI Advisory Council.

The vision of the Initiative is: "Towns involved in the Age-friendly Community Initiative (AFCI) are communities where people of all ages are welcomed, respected, encouraged to participate in the civic and social life of the communities, and are able to age in the community and their homes as long as they like."

An Initial Action Plan that provides a road map for activities to be conducted under the umbrella of the AFCI has been issued and awaits approval of the AARP. Perhaps the most far-reaching activity specified in the Action Plan has been the Volunteer Driver Program that provides free transportation to the residents over 60 of the four towns for medical and non-medical reasons. Other activities that will be provided include a Winter Exercise Program for seniors, a Morning Call capability, an Age-Friendly web site and a resource directory.

Funding for the Action Plan activities will be dependent during the coming year on a number of sources: appropriations from the four municipalities, grant funding and private contributions.

## PACE Paramedic Service

Citizens of the Town of Greenwood,

PACE Paramedic Service, a Department of Stephens Memorial Hospital is proud to be able to present you with a description of ambulance service for your Annual Town Report.

In 2016, PACE responded to a total of 3964 calls, 71 of which were in in your town. Our average response time for the calls in Greenwood was 10.2 minutes. Our average time has improved due in large part to our addition of a full time 7p-7a Paramedic Level Crew that is staged 24 hours / day in our Northern District. We are regularly out the door and on our way to calls in less than one minute with a minimum of three Paramedic Level Crews on duty at all times. As with all of the towns PACE covers, we provided the highest level of care available with a Paramedic on every 911 response. We were once again able to replace an ambulance this year with a vehicle that is rated among some of the safest and most sophisticated on the road today! And keep an eye out for us as a featured service in the EMS Week Insert placed in all of the newspapers this year as well.

PACE continues to maintain a very close relationship with the fine group of professionals on the Greenwood Fire Department and enjoys being able to work and train with the Fire Fighters whenever possible. Although we usually stage in Woodstock, the GWFD has been excellent hosts in allowing us to stage at the Locke Mills Station from time to time to maximize our resources as the need arises. You can also regularly find us at the GWFD Fish Fries - They are excellent!

In addition to the day time Fire Department coverage Greenwood and Woodstock share, both departments are also Maine EMS Licensed First Responder Services. They respond with PACE on calls bringing highly skilled, lifesaving aid to the citizens. This is truly a neighbor helping neighbor scenario, with local citizens responding to render care at your time of need. Working in concert with PACE, they have proven to be a true asset to the community. At PACE, we can not express our appreciation of their efforts enough. They have been absolutely superb on calls and an essential extension in the chain of survival.

PACE is always happy to visit schools, daycare facilities, organizations, and the like to talk about emergency care and give tours of the ambulances as part of our community outreach program. We are also more than willing to give tours of our station located on the Stephens Memorial Hospital Campus. We provide regular CPR & First Aid training here at Stephens and we are also willing to set up special classes to meet your needs. Please feel free to call 207-744-6126 to schedule tours and training.

Should you have any questions or concerns about ambulance service in your area, feel free to contact the Director anytime.

Yours Truly,

Bob Hand, Paramedic  
Director; PACE Paramedic Service  
Stephens Memorial Hospital

## INDEPENDENT AUDITORS' REPORT

To the Board of Selectmen  
Town of Greenwood, Maine

We have audited the accompanying financial statements of the governmental activities of the Town of Greenwood, Maine as of and for the year ended June 30, 2016, which collectively comprise the Town's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Town of Greenwood, Maine's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities of the Town of Greenwood, Maine, as of June 30, 2016 and the respective changes in financial position, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis and the budgetary comparison information, as listed in the table of contents, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Greenwood, Maine's basic financial statements. The combining and individual nonmajor fund financial statements, listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The supplementary information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.
